## PLANS COMPLETE FOR JEFFERSON

Asked Tuesday to Make Bids.

#### WILL BEGIN WORK OCTOBER THE FIRST

Architect Says Building Will Be Finished By September of Next Year-Ten Stories Will Make It Probably the Highest Structure

in Richmond.

"The drawings and specifications addition to the Jefferson Hotel and the large auditorium adjoining

auditorium will begin on October 1st hext, and under the terms of the conheat must be completed by September 1, 1905. That means absolute completion by that time, but I think we will have possession some time before that.

"The plans and specifications are complete, and I have turned over a copy to the officers of the Jefferson Realty Company.

"Architects for Jefferson Hotel."

It is of interest to every citizen of Richmond to know that within thirty days work will have been begun not only in restoring the Jefferson Hotel, but in making it larger and more beautiful than it was before the great fire.

Within eleven months after the contract is signed, possession will be given not only to the finished and furnished hotel, but to the immense auditorium that is to be constructed on the Main Street side, east of the Jefferson.

The question of cost has not been considered in planning the new Jefferson, and, in fact, after the plans had practically been completed, the directors of the company decided to add another story to the building, and this Eas been the reason of the delay in sending out invitations for bids.

Will Be Ten Stories.

### "State" Apartments.

On the Jefferson Sireet side, just behind balcony overlooking the lobby, there ill be a magnificent suite of "state" bed and bath-rooms, except for a large dining-room for nursea and children on the third floor. In the six stories of the addition are three hundred bed-rooms and one hundred and sixty-two private vonnecting bath-rooms, making, with those in the present building, more than four hundred bed-rooms and two hundred bath-rooms. Every room in the addition is an outside room, for into the Main Street front a court one hundred and twenty-five feet deep has been let above the dining-room floor. This furnishes air and light to every bed-room.

Roof Garden and Sun Parlor.

Above the ninth story is the roof gar-den with sun parlors at the cust and west ends, furnished with electrical dumb waiters connecting with the restaurant in the basement.

The details of both exterior and inte-tion are most claimerate, the carriers on

In the basement.

The details of both exterior and interior are most elaborate, the carving on the pillars being exceedingly beautiful and the cellings being of sunken pane's with moulded beams.

The auditorium will be two stories high, fronting eighty-five feet on Main Street and running back one hundred and ten feet. The rehitecture will be the same as the hotel, which will be connected with it by a passageway, leading from the balcony on the din'ng room floor.

On the ground floor the Auditorium building will contain two large stores, one to be occupied by a florist and one by a confectioner. Behindathe mwill be six large commercial rooms and a spacious barber shop.

The auditorium proper on the second floor will seat one thousand persons, it will contain a stage and be in every way sultable for great public gatherings.

Fire-escapes lead from every window, and every provision for safety and comfort have been observed.

Great Work to Be Done.

Great Work to Be Done.

The immense amount of work that is to be done in the eleven months that will be required to complete the building will be in a measure understood when it is stated that the new buildings will contain nearly three million cubic feet, covering nearly thirty-five thousand square feet.

The specifications are continued in sixty-three pages of typewritten matter, and the plans cover forty-four immense sheets of drawings. The Jefferson Hotel block between Frankin and Main Streets and Jefferson and Adams Streets, except that portion on which are the residences of Colonel Archer Anderson, on Franking Street, and Mrs. Wise, on Main Street.

and a high percentage of mortality. The most uneasy news for America is that a second case exists at Hamburg. It was officially reported late to-day that a laborer in St. George's Hospital, where the Russian emigrant died, has cholera, but it is added that the seizure is of a milder form than the previous one.

Two of the other fresh cases are in East Prussia, indicating that the infected area has widened. The imperial health office, as shown by the statement made to-day to the Associated Press, is confident that it has the disease in hand. The most recently reported victims are among the Russian rivermen in quarantine. Professor Adolph Kafka, Professor Koch's successor as head of the Institute of Infectious Diseases, has gone to the infected district to direct the measures to confine the disease.

The Institute of Infectious Diseases will be open all night, examining secretions taken from the digestive tubes of persons who have died under circumstances suggesting cholera. From time to time fouriers arrive from some port of Germany with portions of bodies done up hermetically. The ministry of the interior has issued an order covering all Prussia, requiring physicians immediatly after the death of any suspected pritien to send a messenger with sections of the alimentary canal to the Institute of Infectious Diseases for thorough examination.

### TAKE CARE OF OLD MEN, WITH RAZOR, SLASHED UNIVERSAL SENTIMENT

Proposed New Tax for Benefit of Aged Members of Royal Arcanum. (By Associated Press.)

PUT-IN BAY, O., September 2.-The Committee on Assessments appointed by the Royal Arcanum to hear the claims of the protesting delegates concluded its hearing to-day. The committee now have the matter under consideration and are discussing the main features of the report, but what conclusion has or will be reached no one is able to determine. The proposition has been introduced for the levying of a fraternal tax of ten cents a year on each member of the order, to be used in paying the assessments of those aged members who are unable to pay them. This was referred to a committee for consideration. There is a sentiment expressed that might be called universal, that the old members of the order should be taken care of in some way. It is said that abbe Landis, the expert fraternal actuary, whose addresses in these meetings have done much toward influencing the sentiment regarding the new rates, has really no plans to lay before the Supreme Council. He has suggested some modifications, but all of these, it is said, are already before the Committee on Assessments from other sources and are under consideration. the Royal Arcanum to hear the claims

PORTSMOUTH, N. H., Sept. 2.—With
the exception of a single portion of the
text, the "Treaty of Portsmouth" was
completed this afternoon at a conference in Baron Komura's room and it is
borrely possible it can be signed on Monday. It consists of sixteen articles.

To-night at 9 o'clock, M. Witte and M.

war.

The interruption of communication with Japan may delay slightly the signing of the treaty. The Associated Press can state definitely that no messages have reached the Japanese plenipotentiaries for four days, and they are now proceeding under their general instructions.

A cable has been received from the Japanese consul at Hong Kong, saying that he could not tell when communication would be restored. The typhoon which interrupted communication was very severe, but it is not known whether it affected both the land and submarine lines. Baron Komura has not yet declede whether upon the engrossment of the treaty he will assume the responsibility of signing it without direct authorization. If he does not, however, the delay would be only a matter of two or three days, as a special steamer could go from Shanghai to Nagaski in fifty hours.

The Japanese say the Emperor's failure to send a message of thanks to President, Rossevelt is undoubtedly due to the interruption of communication.
